

Why adopt from Paws Place?

Trooper—adopted in July 2011

There are many advantages to adopting your pet from Paws Place. All our dogs are spayed or neutered. They are up-to-date on their vaccinations, and have had all health issues addressed before they are ready for adoption. These dogs spend a lot of time with our workers and volunteers, and we know their personalities, traits, likes and dislikes well.

We work very hard to match the needs of the dog with those of the adoptive family to be sure we have a great fit for both.

Panda Bear—adopted in July 2011

Paw's Place, Inc. (dba Paws Place Dog Rescue) is a 501(c)3 non-profit organization

Paws Place Mission:

- We save pets.
- We nurse them back to health.
- All animals are spayed or neutered.
- We provide a sanctuary for all until they are adopted.
- Most of all, we are dedicated to finding them a loving home no matter how long it takes. One life at a time.

Without your generous donations we would not be able to continue this important work. There are many convenient ways to donate to Paws Place. We have a donation form which is available on our website. Checks may be sent to our address below.

You can also donate via PayPal from our website or facebook page.

Our history

Paws Place is a privately run, non-profit dog rescue facility in Brunswick County. Founder Nancy Janovetz established Paws Place in April of 1999. In June of that year, Paw's Place, Inc. purchased a five-acre tract of land in Boiling Spring Lakes. Nancy then designed the dog kennels and layout paying special attention to the needs of the dogs' comfort, safety and proper hygiene. With the help of volunteers, 42 covered kennels were completed in 90 days. The shelter had its first occupants before it was totally completed. Since its inception, we have found permanent homes for over 1000 dogs. Paws Place serves Wilmington, Brunswick County and surrounding communities.

Bertie's story

Bertie was found as a three week old pup in a ditch on Rte 17 by Magnolia Greens. He was hypothermic, had head trauma and was almost dead. River Road Animal Hospital helped him get his body temperature up by carrying him around for days. Bertie went into seizures when he

Bertie at six weeks of age

was wormed the first time, because his tiny two-pound body couldn't stand the shock. He was pampered day and night and overcame all these obstacles.

After three weeks at River Road one of our volunteers took him in to foster him. He lived for four weeks with three ferrets, three Chihuahuas, and a Border Collie while learning to socialize, play, ride in the car and visit new places. At ten weeks of age Bertie came to Paws Place and got along well with other dogs large and small. He is a gentle soul that just wanted to be loved and say hello to every dog he met. Large, active dogs knocked him over as he had no peripheral vision. His hearing was fine, but needed large motion to get his visual attention.

Bertie found his forever home in June 2011. Here he is with his older "sibling."

Kayla and Bertie —June 2011

Juliet's story

This sweet girl was adopted earlier this year. While our main focus is finding forever homes for our dogs, we must also keep in mind the very positive impact they have on the families that adopt them.

"Thank you so much for saving her life! We're forever grateful to you for taking her in so we could find her. She's a perfect fit for our family." Emily V.

Juliet

How can you help?

Volunteers are the heart of our organization. There is much work to do to keep our operation moving in a positive direction. Many activities can be done right from your home or office. We need people to help with:

Fundraising

Grant writing

Event planning

Publicity

Donation acknowledgement
